Educational Administration

Lewis & Clark’s Educational Administration programs seek to prepare confident school administrators who embrace the challenges facing our public and private schools. The liberal arts traditions of scholarship, inquiry, and self-knowledge serve as the foundation for our courses and individual programs. Candidates who successfully complete program requirements understand and demonstrate the knowledge and skills necessary to be learners, collaborators, leaders, and innovators. As our license candidates assume positions of responsibility, the school and district organizations they lead create the conditions for learning where all children achieve.

Courses are taught by professionally active faculty and are designed as small, intensive seminars. Lewis & Clark offers educational administration and leadership programs approved by the Oregon Teacher Standards and Practices Commission (TSPC) and National Council for Accreditation of Teacher Education (NCATE).

In addition to on-campus courses, Lewis & Clark offers administrative licensure program course work in central Oregon, eastern Oregon, and the south coast regions. Also note that Special Student status is available for individuals wanting to enhance their leadership skills, update knowledge in specific areas, or complete outstanding coursework for a degree or licensure program. With Special Student status, individuals may take degree-applicable credit prior to formal admission to a graduate school program. See Program-Specific Admission Information for Educational Leadership (http://docs.lclark.edu/catalog/archive/2012-2013/graduate/admissions/) for more information.

Educational Specialist in Administration with Initial and Continuing Administrator Licenses
The Educational Specialist degree in Administration is intended for students who have earned master’s degrees and are seeking the Oregon Initial (IAL) and Continuing Administrator (CAL) licenses. This advanced degree is positioned between a master’s and doctoral degree, and allows those holding an Oregon teaching or personnel service license to complete both administrative licenses within a five-year period of time. Students are able to complete a unique post-master’s degree course of study without earning a doctorate. Together, the IAL and CAL programs of study help aspiring and new-to-profession educational leaders grow into seasoned professionals with the knowledge, values, skills, and courage to improve teaching and learning in schools. By addressing issues of equity and focusing on best practices for effective leadership, students exit the Ed.S. program ready to practice reflectively, think critically, and use data and research to advance learning and achievement for all students. The Ed.S. program is designed to be responsive to the changing nature of schools and the work of educational leaders.

A culminating capstone project, Integrated Administrative Seminar (EDAD 576), will require students to synthesize and integrate their learning over time into a written report and a public presentation. The capstone may draw upon coursework, action research, or practical projects related to current professional responsibilities. The project must have the approval of the program director and will be designed and completed within one semester. An oral presentation of the report will demonstrate the practical application of the project findings with professional leadership skills. In addition to the written and oral presentations, students will write a reflection to assess leadership growth across their program coursework and experiences, including how their post-master’s work has impacted their professional careers.
