Music
Chair: Dinah Dodds
Administrative Coordinator: Denise Gerhardt
Music is an artistic and social language. It is abstract, yet also emotional and communicative. To understand music takes experience, reason, and words, but it also requires imitating it and creating anew. We speak both about music and in it.
Lewis & Clark offers opportunities in music for the person first exploring the art as well as for the serious student who aspires to a professional career. It is the fundamental mission of the Department of Music to enable students at all levels to experience music as a perpetually liberating and enriching element in their lives.
The curriculum encompasses many courses, private lessons, and ensembles, all of which are available to the nonmajor as well as the music major. Instruction emphasizes the integration of performance studies, knowledge of the literature, and theoretical concepts. Many courses concentrate on music as a reflection of various societies and cultures, Western and non-Western.
The Department of Music faculty consists of active performers, composers, and scholars, all of whom are dedicated teachers.
Performing Organizations
The Department of Music provides performing opportunities for students at all levels of accomplishment and interest. These include small, informal chamber ensembles as well as the African Marimba, Cappella Nova (a mixed choral ensemble), Community Chorale, Javanese Gamelan, Jazz Combos, Opera/Musical Theatre, Orchestra, Percussion Ensemble, West African Rhythms, Wind Symphony, and Women’s Chorus.
Resources for Nonmajors
All performing groups welcome participation by nonmajors, and all studio instruction is open to beginning as well as advanced students. The following courses are appropriate for students with little or no previous knowledge of music.

Facilities
The musical life of Lewis & Clark is based around Evans Music Center. Rehearsal rooms, 22 practice rooms, faculty offices and teaching studios, classrooms, and administrative offices of the Department of Music are located there. The 400-seat Evans Auditorium is well known in the Portland area for its superior acoustics. Agnes Flanagan Chapel is also often used for major concerts and has recently undergone a major renovation that enhanced it even further as a performance venue. Fir Acres Theatre provides excellent facilities for production of operas, musicals, and other types of theatre.
The Department of Music uses a collection of more than 4,000 recordings, compact discs, and cassettes housed in Aubrey R. Watzek Library. A fully equipped listening center and electronic and computer music studio with video editing capabilities is available for student use. Evans Music Center also contains a Yamaha electronic keyboard laboratory.
The music center houses two harpsichords, a baroque organ, and 43 pianos, including one seven-foot and two nine-foot Steinway concert grands. The Agnes Flanagan Chapel contains an 85-rank Casavant organ appropriate for performance of all styles and periods. It is one of the finest organs in the Pacific Northwest. Two other pipe organs are also available on campus.

The Major Program
In addition to the minimum major requirements, all students majoring in music pursue a senior project in composition, ethnomusicology, musicology, music education, or performance. A core curriculum is common for the first two years, with students pursuing appropriate concentrations in the junior and senior years. Declaring a music major by the sophomore year is advisable.

All majors and prospective majors are reviewed by the music faculty at the end of the fall semester of the
sophomore year. Most students should be near the completion of common requirements in the major at this time. Transfer students and those who decide to declare a music major after the sophomore year must consult the department chair.

The review involves a short performance in the student’s primary area of studio instruction, optional work samples in his or her primary area of interest (for students concentrating in composition, musicology, or ethnomusicology), and an interview about intended areas of concentration in the junior and senior years. In this formal advising opportunity, the entire music faculty is available to help each student plan to fulfill upper-division degree requirements and complete the senior project.

A satisfactory departmental review results in faculty approval of upper-division status as a music major, and is a prerequisite for MUS 490 Senior Project. Enrollment in MUS 490 also requires completion of at least one semester of 300-level study in the chosen area of concentration. Further advising for a student’s senior project is done individually to match students’ aims with departmental and national standards. The project requires work beyond the basic major requirements. Majors are also required to pass a piano proficiency examination before enrolling in MUS 490.

**Major Requirements**

All students intending to major in music must first complete (or have waived by examination) MUS 101, MUS 111, and MUS 121. Credit earned in these courses does not apply toward the major, which requires a minimum of 44 semester credits, distributed as follows:
