PROFESSIONAL MENTAL HEALTH COUNSELING—SPECIALIZATION IN ADDICTIONS

Professional Mental Health Counseling—Specialization in Addictions offers unique and innovative training for students interested in working with a diverse range of mental health as well as addiction-related problems. The demand for qualified counselors who are prepared with graduate-level knowledge and skills specific to the treatment of clients with co-occurring mental health and addiction problems is constantly increasing. Professional Mental Health Counseling—Specialization in Addictions offers students the best available instruction and training for both mental health and addiction counseling with a focus on co-occurring disorders.

Accreditation and Licensure
The Oregon Board of Licensed Professional Counselors and Therapists (OBLPCT) extends approval to Lewis & Clark’s programs leading to the master of arts and master of science in Professional Mental Health Counseling. The program is approved by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) under the 2009 standards for Clinical Mental Health Counseling programs. Graduates who have earned the MA or MS degrees are eligible to pursue licensing as professional counselors (LPC) in Oregon.

Other states, including Washington, grant eligibility for licensing to graduates of our programs. However, some states may have additional educational requirements that must be met prior to licensure.

Professional Mental Health Counseling—Specialization in Addictions meets the same criteria for the LPC license as the general Professional Mental Health Counseling program. Additionally, the Professional Mental Health Counseling—Specialization in Addictions curriculum fulfills all of the educational content hours required for the State of Oregon Certified Alcohol and Drug Counselor I (CADC I) and is approved by the Oregon Addiction Counselors Certification Board (ACCBO).

Master of Arts in Professional Mental Health Counseling—Specialization in Addictions
This degree program integrates preparation for general professional mental health counseling with an emphasis on addiction.

Degree Requirements
A minimum of 62 semester hours, distributed as follows:

Elective Courses
The remaining 1 semester hour will be earned by taking an elective course.

Graduate Convocation Requirement
Students must attend the Convocation (CORE 500) during their first year in the program.

Master of Science in Professional Mental Health Counseling—Specialization in Addictions
Students admitted to the Master of Arts in Professional Mental Health Counseling—Specialization in Addictions may choose to seek an MS degree. This option, which includes the completion of a research-based thesis, is often of interest to students planning to pursue a doctoral degree in counselor education or psychology. Students become eligible to formally apply to the MS program upon completion of the requirements listed below.

Requirements for Application
• Current enrollment in the Master of Arts in Professional Mental Health Counseling—Specialization in Addictions Program.
• A demonstrated capacity for initiative and independent research.
• Completion of one of the following, with a grade of B or better:
  - MHC 538 Advanced Research Methods (for those with demonstrated skills and experience in research)
  - MHC 535 Research Methods in Counseling (for those with no research background)
  • Completion of one of the following, with a grade of B or better:
CTSP 531 Statistics for Professional Practice (for those interested in conducting quantitative research) 3
CTSP 537 Qualitative Research Methods (for those interested in conducting qualitative research) 2

• Completion of CTSP 594 Proposal Writing
• Completion of a thesis proposal, including a timeline for completing the project, agreement by a faculty member to serve as the chair of the thesis committee, and designation of a three-person faculty committee
• Formal approval of a thesis proposal by a thesis committee

Degree Requirements
A minimum of 66 semester hours, distributed as follows:

Students must meet all degree requirements for the Master of Arts in Professional Mental Health Counseling—Specialization in Addictions degree, complete the application requirements listed above, and take the following course:

CTSP 595 Master's Thesis Research (satisfactory completion 2-9 of a thesis—a minimum of 2 semester hours and maximum of 9 semester hours is required)

* Students who take CTSP 537 Qualitative Research Methods must take either an additional credit of CTSP 594 Proposal Writing or an additional credit of CTSP 595 Master’s Thesis Research.

Practicum and Internship Information
Professional Mental Health Counseling—Specialization in Addictions students complete two terms of practicum and two terms of internship work. Supervised work with clients is completed at two sites, the Lewis & Clark Community Counseling Center (https://graduate.lclark.edu/clinics/community_counseling/) and an approved community mental health or addiction site. To provide students with the widest range of opportunities to meet their professional goals, over 100 agencies in Portland and its surrounding communities are approved for placement. Prospective interns contact and interview with agencies in conjunction with our annual internship fair. Onsite faculty supervision and videotaping assist students in developing their skills and providing appropriate services to clients.

Prior to enrollment in a practicum or internship, students must complete a portfolio of their work in the program, including coursework, field work, and other professional activities. More information is available in the program handbook, available online.

Master of Arts Courses
MHCA 502 Introduction to Professional Mental Health and Addiction Counseling
Content: Basic theoretical assumptions of the professional mental health and addiction counseling profession, with an overview of the historical roots, social and cultural contexts, types of practice, ethical principles, and professional orientation. Special attention and focus will be on issues related to diversity and social justice.
Prerequisites: None.
Restrictions: Admission to Professional Mental Health Counseling - Specialization in Addictions or consent of program director.
Credits: 2 semester hours.

MHC 506 Life Span Development
Content: Exploration of life span development through the lenses of social, cultural, cognitive, biological, and learning theories and research. Emphasis is on gaining better conceptual understanding of healthy development and better practical understanding of how to help children, adolescents, and adults address the developmental challenges they face across the life span. Particular focus placed on understanding our own developmental processes as well as the role of cultural difference and commonality in the developmental process.
Prerequisites: None.
Credits: 2 semester hours.

MHC 509 Practical Skills for Counselors
Content: Overview of basic counseling concepts and skills, including skill development through role-playing and simulated counseling experiences.
Prerequisites: Take MHC 513 and either MHCA 502 or MHC 503.
Credits: 3 semester hours.

MHC 513 Theory and Philosophy of Counseling
Content: Overview of counseling theories such as psychoanalytic, Adlerian, client-centered, cognitive-behavioral, multi-modal, Gestalt, feminist, existential, solution-focused, and brief therapy, as well as integrative approaches. Examines a wide range of theoretical perspectives and advocates professional knowledge of best practices. Students acquire knowledge of various counseling theories and critique their relevance to diverse populations and clinical situations. Students clarify their personal assumptions and learn how to explain their own theoretical stance. Issues of diversity and client matching are addressed throughout.
Prerequisites: None.
Credits: 3 semester hours.

CTSP 514 Group Counseling With Children and Adolescents
Content: Instruction and practice in developing group treatments for children and adolescents in clinical and school settings. Students gain practice as group leaders in addressing issues related to group dynamics, cultural diversity, potential problems encountered when running groups, and generalization and maintenance of behavioral change. Students also gain experience constructing curricula for specific issues such as divorce, substance use, grief, and social skills.
Prerequisites: For Professional Mental Health Counseling or Professional Mental Health Counseling - Specialization in Addictions students, take MHCA 502 or MHC 503, and MHC 506, and MHC 550. For students in the School Psychology program, take SPSY 502.
Restrictions: Consent of Counseling, Therapy & School Psychology department required.
Credits: 3 semester hours.

CTSP 515 Group Counseling With Adults
Content: Introduction to the major schools of thought regarding group therapy and the common factors associated with positive outcomes. Covers group dynamics, obstacles to success in group therapy, and the stages of group process. Role-playing, outside group membership, and demonstrations illustrate principles of effective group leadership.
Prerequisites: For students in Professional Mental Health Counseling or Professional Mental Health Counseling - Specialization in Addictions, take MHCA 502 or MHC-503, and MHC 506, MHC 513, and MHC 550.
For Marriage, Couple, and Family Therapy students, take MCFT 516. For students in the School Psychology program, take SPSY 502.
Credits: 3 semester hours.
MHC 522 Diagnosis of Mental and Emotional Disorders
Content: Introduction to the structure and uses of the DSM 5 for diagnosing mental and emotional disorders. Limits and weaknesses of these approaches—especially with regard to cultural differences—and alternatives to them. How to use these systems effectively in the context of person-centered, psychosocial, and systemic interventions, and in culturally diverse environments. Current knowledge, theory, and issues regarding selected disorders. Use of technology-based research tools to secure and evaluate contemporary knowledge.
Prerequisites: MHCA 502 or MHC 503; MHC 506, MHC 513, and one of the following: MHC 535 or MHC 538.
Credits: 3 semester hours.

MHC 523 Counseling and Interventions With Children and Adolescents
Content: Mental, emotional, and behavioral disorders of childhood and adolescence. Topics include identification, diagnosis, and planning of multifaceted counseling intervention and treatment strategies; developmental, social, and cultural influences on diagnoses and interventions; ecological and social-justice-oriented conceptualization and intervention across systems.
Prerequisites: MHC-503 or MHCA-502
Credits: 2 semester hours.

MHC 524 Counseling and Interventions with Adults
Content: Identification, assessment, diagnosis, and treatment of mental, emotional, substance abuse, and addictive disorders in late adolescence and adulthood. Covers adjustment, mood, anxiety, psychotic, dissociative, impulse, sexual, personality, and addictive disorders, including gambling and eating disorders. Topics include multicultural, interpersonal, and relationship factors; evidence-based treatments; and information technology research tools. Emphasis is on planning comprehensive, multifaceted treatment interventions.
Prerequisites: Take either MHCA-502 or MHC-503. Take MHC-506, MHC-513, and MHC-550.
Credits: 3 semester hours.

MHC 532 Ethical and Legal Issues in Professional Counseling
Content: Consideration of the applicable ethical and legal issues for mental health and school settings. Students develop skills in writing reports, assessments, and treatment plans.
Prerequisites: Take either MHCA-502 or MHC-503.
Credits: 2 semester hours.

MHC 534 Child and Family Counseling
Content: An introduction to theoretical systems and practical approaches to working with children and families in various counseling settings. Ethical principles, self-awareness, personal counseling style and honoring of diversity will be examined through textbook reading, class discussions, reflective assignments, as well as various classroom activities to assist students in beginning work with children and families. Students will practice counseling skills related to working with children and families and will develop awareness and intentionality in conceptualization of child and family clients.
Prerequisites: Take MHC-506, MHC-513, MHC-550 and either MHCA-502 or MHC-503.
Restrictions: Admission to Professional Mental Health Counseling or Professional Mental Health Counseling - Specialization in Addictions.
Credits: 3 semester hours.

MHC 535 Research Methods in Counseling
Content: Foundations of psychological research. Students are introduced to qualitative and quantitative research processes and basic concepts. Topics include (1) elements of the research process; (2) types of designs, program evaluation; (3) ethical considerations of research: informed consent, research with diverse and vulnerable populations, research with children, human subjects review; (4) basic measurement concepts: validity, reliability, norms, score interpretation; and (5) basic statistical concepts: frequency distributions, central tendency, measures of variability, correlation, normal curve, hypothesis testing, significance tests. Students read and evaluate examples of published research. Reviews Web-based resources for conducting research.
Prerequisites: None.
Credits: 3 semester hours.

MHC 540 Career Counseling
Content: Career development theories; current career trends, concerns, and programs/interventions for diverse client populations; career counseling strategies, tools, and resources (including Web-based resources); facilitation of client awareness, choice, and action with respect to career-related issues; integration of career counseling with mental health and addictions treatment. Emphasis is on developing a broad view of career as lifestyle, the mutual impact of career and culture, and the practical application of theory and information in a professional counseling context.
Prerequisites: None.
Credits: 2-3 semester hours.

MHC 541 Introduction to Assessment
Content: Principles of psychological assessment as employed in school, clinical, and applied settings. Addresses psychometric concepts such as validity, reliability, norms, and score interpretation. Surveys intelligence, personality, career, interest, aptitude, and achievement tests and reviews alternative methods of assessing competence and person-situation interactions. Contemporary issues such as the validity of instruments for diverse populations and the impact of technology on assessment are discussed.
Prerequisites: For Professional Mental Health Counseling students, MHC-503, MHC-506, MHC-509, MHC-513, MHC-534, one of the following: MHC-535, or MHC-538. For Professional Mental Health Counseling - Specialization in Addictions students, MHCA-502, MHC-506, MHC-513, MHC-550, and one of the following: MHC-535, or MHC-538.
Credits: 2 semester hours.

MHCA 545 Drugs, the Brain, and Behavior
Prerequisites: None.
Restrictions: Permission of the Professional Mental Health Counseling - Specialization in Addictions program director.
Credits: 3 semester hours.
MHCA 546 Models of Addiction and Recovery
Content: Theories of the nature, course, causes, and effects of addiction to alcohol and drugs of abuse. Conditions, processes, and patterns of recovery. Emphasis on physiological, social learning, and interpersonal models and theories. Natural history of onset, abuse, addiction, and recovery; effects of intergenerational transmission, genetic predilection, developmental risk, and sociocultural factors; effects on psychosocial development; impact of culture and gender differences. Implications for treatment.
Prerequisites: None.
Restrictions: Permission of the Professional Mental Health Counseling - Specialization in Addictions program director.
Credits: 3 semester hours.

MHCA 547 Addictions Treatment: Procedures, Skills, and Case Management
Content: Emphasis on developing detailed understanding and beginning skills in the use of specific strategies, procedures, and interventions in assessment, diagnosis, and treatment of substance abuse and addictive disorders. Topics include multiple modes and models of assessment, intervention and treatment, content and basic assumptions of different treatment modalities, organization of comprehensive treatment strategies, motivational interviewing in the context of stages-of-change models, contracting with clients, consultation, integration of medical and psychosocial treatments, referral processes and standards, issues of moderation versus abstinence, relapse prevention, and case management. Also covers documentation, record keeping and management, confidentiality, and ethical and legal issues.
Prerequisites: None.
Restrictions: Permission of the Professional Mental Health Counseling - Specialization in Addictions program director.
Credits: 3 semester hours.

MHCA 548 Trauma and Crisis Intervention in Counseling: Theoretical Foundations, Response Models, and Interventions Across the Life Span
Content: This class includes the basic historical and theoretical foundations of crisis intervention and treatment of the effects of trauma. The main focus of study is current theory and practice models as well as the application of skills and techniques utilized in crisis interventions. The effects of crises, disasters, and other trauma-causing events will be differentiated across the lifespan. Principles of crisis intervention for people during crises disasters and other trauma-causing events will be examined utilizing a worldview context. Counselor self-care practice will be integrated into crisis and trauma work to bring into awareness and ameliorate the effects of crisis and trauma exposure.
Prerequisites: MHCA-502 or MHCA-503; MHCA-505; MHCA-507; MHCA-509; MHCA-532; CTSP-514 or CTSP-515; MHCA-522; MHCA-523; MHCA-524; MHCA-535 or MHCA-538; and MHCA-550.
Credits: 2 semester hours.

MHCA 549 Treatment Planning: Theory and Research to Practice
Content: This course assists students in developing critical thinking, case conceptualization, and treatment planning skills. Students develop their abilities to gather data, conceptualize from their emerging theoretical perspectives, and plan treatment. Uses an ecological and social-justice framework to view the client in context, apply evidence-based practice with cultural sensitivity, and plan interventions across multiple systems (individual, family, and community).
Prerequisites: Corequisite MHCA-580
Credits: 1 semester hour.
CTSP 531 Statistics for Professional Practice
Content: This course covers the descriptive and inferential statistics practitioners use in their professions. There is an overview of quantitative research designs with the focus on understanding and application of data analysis and interpretation. Coverage includes basic descriptive and inferential statistics, appropriate interpretation of statistical results, and real-world presentation of data. Note: Taught in spring semester only. Students who wish to pursue the thesis-option M.S. program are required to take this course if conducting a quantitative thesis project.
Prerequisites: None.
Credits: 3 semester hours.

CTSP 537 Qualitative Research Methods
Content: Overview and application of qualitative research methods. Through course readings, discussion, and practical application, candidates explore: (1) different approaches in qualitative research and epistemologies and common theoretical perspectives that undergird qualitative inquiry, and (2) various methods and techniques for gathering, interpreting, and making meaning of in-depth and rich information about things as they occur in their natural settings. Candidates gain the skills necessary to review and critique qualitative research and to design and undertake their own qualitative research.
Prerequisites: None.
Restrictions: Consent of instructor, program director, or advisor
Credits: 2 semester hours.

CTSP 594 Proposal Writing
Content: Direct instruction and support for the process of preparing a thesis and/or other research or grant proposals. Includes both a colloquium and individual consultations with a thesis chair (or, if not writing a thesis, another faculty member). The colloquium will focus on the refinement of research questions, the specifics of research design, and the Human Subjects in Research application process. Consultations with thesis committee chair or other faculty member will focus on the development of a manuscript that clearly details the purpose of the research, summarizes relevant literature, and identifies the proposed design and methodology for the research project.
Prerequisites: Research Methods Course from program
Restrictions: Permission of program director or thesis coordinator
Credits: 1 semester hour.

CTSP 595 Master's Thesis Research
Content: Completion of thesis research project under the direction of the chair of the candidate's thesis committee. Two semester hours, which can be taken in 1-semester hour increments, are required for degree. Grades are deferred until the candidate has successfully defended his/her thesis.
Prerequisites: CTSP-594
Restrictions: Consent of thesis committee chair.
Credits: 1-9 semester hours.
