SCHOOL COUNSELING

Ensuring academic, career, social-emotional success for all students defines the school counselor’s role in the school and community. School counselors are mental health advocates, school leaders, change agents, and are highly skilled in collaborative practices and consultation. Lewis & Clark’s School Counseling programs prepare well-qualified social justice oriented school counselors who will deliver comprehensive school counseling services and create affirming spaces for K-12 students. Candidates come to perceive education as a community endeavor requiring the best collaborative efforts of students, educators, families, and community members. Program participants develop close relationships with practitioners and faculty in small class settings while learning how to promote this collaboration through leadership and advocacy.

Lewis & Clark's innovative school counseling program offers both a master’s degree with licensure option and a licensure-only option for those interested in becoming school counselors. Candidates begin working in schools during their second semester. This on-site internship involvement emphasizes a commitment to diversity, anti-racism, social justice, and to the use of data driven practices that drives equity work.

The program continually reviews and improves course offerings to reflect changing expectations at the local, state, and national levels while maintaining academic and philosophical integrity.

The program:
• Provides a high-quality academic experience that develops knowledge and skills and reflects school counseling in the 21st century.
• Provides training in basic and advanced counseling skills
• Provides professional support and assistance for all candidates to meet Oregon state requirements for licensure.
• Focuses on the individual needs of candidates, their students, their schools, and their communities.
• Provides opportunities to work collaboratively with families, volunteers, colleagues, and community members in applying course content to actual work situations, beginning during the first semester of coursework.
• Promotes success for all participants through continued formal and informal feedback and evaluations.
• Provides an arena for multiple professional growth opportunities.

Candidates are prepared to:
• Develop advocacy leadership, and collaboration skills through a comprehensive and challenging curriculum.
• Understand culturally diverse populations and issues of social justice and equity through coursework, field placements and action research work.
• Explore and foster collaborative efforts between schools and communities.
• Be critical thinkers, lifelong learners, and visionaries for their schools and communities.
• Analyze, synthesize, and evaluate a broad and comprehensive knowledge base of best practices in school settings, particularly those that apply to ensuring equity for all students.

Evaluation criteria also includes successful completion of courses (e.g., timeliness of work, cooperation with peers, quality of academic work) and performance rubrics developed according to the performance objectives approved by the Oregon Teacher Standards and Practices Commission (TSPC) and the Council for the Accreditation of Educator Preparation (CAEP) (instructors address these in class).
