**PHYSICAL EDUCATION AND ATHLETICS**

Director: Mark Pietrok  
Associate Director: Sharon Sexton

Physical education is a facet of the liberal arts tradition that stresses the interdependence of the physical, mental, and social dimensions of human experience. Students will learn to recognize and experience the positive benefits of building physical fitness and self-care habits, explore aspects of the body's structure and function, and engage in experiences within a group or community setting.

The wide array of classes that satisfy this requirement are offered at many levels and modes of engagement, including physical education courses (with dozens of options, from weightlifting to rock climbing to yoga and meditation), varsity sports, and dance and movement classes. Courses promote personal health and well-being, often serving collective purposes of expression and teamwork. Students learn to challenge themselves by setting goals and measuring progress toward those goals.

For students interested in practical applications and theory-based learning, the Department of Physical Education & Athletics offers opportunities to collaborate with experienced professionals via independent study or internships to pursue the supervised study of topics not offered in the regular curriculum.

**Facilities**

Pamplin Sports Center and Zehntbauer Swimming Pavilion are the major indoor health and fitness facilities on campus. They house an eight-lane swimming pool, a gymnasium with three basketball/volleyball courts, an extensive fitness center, and an activity room for self-defense, martial arts, dance, and aerobics classes. Locker rooms are available for people participating in classes, recreation, and athletic events. Griswold Stadium, Fred Wilson Field, and Eldon Fix Track feature a lighted, state-of-the-art track and synthetic playing field. The campus has six tennis courts, four of which are covered. Other facilities include the Huston softball-baseball complex and an outdoor pool, which is open during the summer.

**Graduation Requirement**

Students are required to take two physical education/well-being courses (for a minimum of 2 semester credits) as part of Lewis & Clark's General Education requirements ([https://docs.lclark.edu/undergraduate/graduationrequirements/generaleducation/#physical_education__activitytext](https://docs.lclark.edu/undergraduate/graduationrequirements/generaleducation/#physical_education__activitytext)). The following physical education and athletics courses meet this requirement:

- PE/A 101 Activities
- PE/A 102 Varsity Athletics
- PE/A 142 Wilderness Leadership

Upon completing the requirements of a Physical Education and Well-Being course, students will have:

- Learned to recognize and experience the positive benefits of building physical well-being and self-care habits as part of the liberal arts tradition;
- Explored structural and functional aspects of their bodies as part of a healthy relationship with the body;
- Discovered connections between the mind and body, and
- Engaged in these experiences within a group or community setting.

Students may register for only one PE/A 101 Activities course per semester, except in the summer semester, when one course may be taken each session. Up to 4 semester credits earned for the courses listed above may be applied toward total credits required for graduation.
